Draft 5/19/21 –

“Advancing wellness and resiliency for our District”

Current - “Our mission is to expend financial resources to help residents of the District satisfy their healthcare needs.”

First-cut Vision Thoughts

(Your early work from May)

- *Have the ability to communicate with all of our residents within a few seconds. (telephone... robo-calls...grants)*
- *Determine how to communicate with our residents.*
- *Improve access, improve scope to services...what's available, what's out there.*
- *Offer inter-generational educational programs (grants available now, provide locations)*
- *Ambulance services? collaborating efforts?*
- *Mobile urgent care? Collaboration with strategic partners*
- *Staff development*
- *More next time... Wednesday, June 9th is proposed...*

Vision Statement *(For your preparation in thinking Vision)*

- Describes the future;
 - Where are we going?, or
 - How we would like to describe ourselves in five years?, or
 - What we'd like to say in a "State of the District" address in the year 2026?
 - Where do we want to go or what do we need to do that we are not doing currently?
- The Vision drives the Mission forward
- The Vision demands strategy and action!
